Completed

Meta Front-End Developer Certificate
Completed

Microsoft Azure Fundamentals (AZ-900)
Completed

PROFESSIONAL EXPERIENCE

Freelance Data Analyst / Software Engineer

Remote, Beaufort, SC

Jan 2021 – Present

- Designed and deployed **70+ end-to-end data and software projects** using Python, SQL, and React, focusing on automation, dashboards, and predictive modeling
- Built interactive **Power BI and Tableau dashboards** to visualize KPIs, sales trends, and operational metrics—directly aligning with BI analyst responsibilities for reporting and stakeholder communication
- Developed **scalable data models** and wrote complex SQL queries to support analytics workflows, ensuring data integrity and performance
- Implemented **version control and CI/CD practices** using Git/GitHub in Agile environments to maintain code quality and collaboration efficiency

Criminal Justice IT Specialist (Intern)

Beaufort County Detention Center, Beaufort, SC

Jun 2018 – Jul 2018

- **Improved system efficiency by 30%** by optimizing data management workflows and implementing IT solutions
- Collaborated with end-users to integrate technology tools, **boosting system uptime by 20%** and enhancing data reliability
- Provided training on software upgrades, supporting compliance and user proficiency—skills transferable to BI user training and adoption

Assault Amphibious Vehicle Crew Chief

U.S. Marine Corps, Camp Lejeune, NC

Apr 2008 – Apr 2012

- Maintained and troubleshooted complex mechanical and electronic systems under pressure, demonstrating **strong analytical and problem-solving skills**
- Led cross-functional teams in technical operations and safety protocols, highlighting **leadership, teamwork, and attention to detail**
- Utilized advanced navigation and reconnaissance tools to support mission-critical decision-making—parallel to **data-driven insight generation** in BI roles

EDUCATION

Bachelor of Science, Computer Science and Information Science

Park University, Parkville, MO

2015 – 2020 | GPA: 3.5/4.0

Bachelor of Science, Criminal Justice Administration

Park University, Parkville, MO

2013 – 2018 | GPA: 3.4/4.0

BI-FOCUSED PROJECTS

Global Superstore: Data Modeling & Dashboard

Personal Project | Sept 2024

- Restructured and normalized a relational schema in **MySQL**, improving query performance and reducing redundancy
- Built an interactive **Tableau dashboard** to visualize sales trends by region, segment, and category—demonstrating ability to turn data into business insights
- Aligns with BI responsibilities: data modeling, reporting, and stakeholder-friendly visualization

Little Lemon Database & Automation

Personal Project | Sept 2024

- Designed a logical **MySQL data model** using forward engineering techniques
- Developed **SQL stored procedures and complex queries** to automate booking and order workflows—showcasing data preparation and automation skills key to BI roles

Sales Dashboard & Retail Insights

Retail Experience Project | 2023

- Created **Tableau dashboards** to track retail KPIs, customer trends, and inventory performance
- Translated raw sales data into actionable insights for business stakeholders, supporting **data-driven decision-making** as outlined in BI analyst job descriptions
