Lab: Crafting Interactive Visualizations in Tableau

Estimated time needed: **60** minutes

Required Software

You will complete this lab using the free Tableau Public or Tableau Public Desktop version.

Prerequisites

You need a free Tableau Public account for this lab. If you haven't already done so, you can sign up for an account using the link here.

Data

Data set: A sample product sales dataset called **Sales** that is designed to showcase the creating of interactive visualizations in Tableau.

Objectives

After completing this lab you will be able to use Tableau Public and create and highlighting for your visualizations in Tableau Public.

In this hands-on lab, you will:

- Connect to a data source in Tableau
- Create and save your first visualization in Tableau

Exercise 1: Add Filters to a Visualization in Tableau

In this exercise, you will add sample data and create filters and dashboards to visualizations in Tableau.

1. Navigate to the **Tableau Public home page**.
2. Click on **Sign In** and enter your **Tableau Public** credentials and click **SIGN IN**.
3. Click on **Create** and select **Web Authoring**.

4. In the **File** tab, click **Upload from computer**.

5. Drag and drop the file **MV_Sales**.

6. Click **Update Now**.

7. Click **Sheet 1**.

8. Click **Add Data Source Filters**.

9. Click **Add** and Set **Sales Group** and check the boxes against **Furniture**, **Office Supplies** and **Technology**, and click **OK**.

10. Click **OK** again.

11. Using the **Design** dimension from the **Dates** pane in the **Tableau** pane, drag and drop the **Year** dimension to the **Rows** pane.

12. In the **Year** pane, click **Filter** and in **Dimensions (MV_Sales)**, check and click **Add Data Source Filters**.

13. Click **OK** again.

14. Click **Add Data** in the left tab, type **Sales**, then select **Sales in Thousands**.
15. Click **Add Data** in the left tab, type **Product**, then select **Product Name** and **Product Sub-Category**.
16. Click **Add Data** in the left tab, type **Customer**, then select **Customer Name** and **Customer Segment**. Click **Add** for any of the product categories.

17. Click the **Sales** pane.

18. Drag and drop the **Sales in Thousands** pane to the **Rows** pane.

19. Drag the **Customer** pane to **Columns**.

20. Right-click the **Customer** column and click **Include**.

21. In the **Filter** tab hover over **Group**, click the small white arrow, and then click **Show Filter**.
